# Spy mission

Answers to questions

1. most likely student of FI MUNI - started and finished there
2. Bayerova 36 - visited it twice, I don't see any other reason to go there
3. Could be sick, since he stopped by pharmacy on Botanická
4. Seems to have visited `Buchta B` so probably something from there

About program

- since I wanted to use icons I had to upload `.zip` instead of just `.py`, I hope that it isn't a problem
- on startup program attempts to open file `log.txt` if such file is located in current directory
- files with GPS data can also be loaded while program is already running
- program uses `GPGGA` sentences to draw path, also is able to validate checksum of sentences

Playback controls

icon	function
▶II	play or pause playback
■	stop playback, delete lines
▶▶	increase speed
◀◀	decrease speed
I◀◀	stop playback, delete lines, go to start
▶▶I	stop playback, draw full path

- upper slider
  - shows progress
  - can be dragged to jump in playback
- speed slider
  - delay between each movement
